Education Background

Master-Social Sciences, University of Hong Kong - QS:11 Sep 2025 - Dec 2026
Spatial GIS (A+), Causal Inference (Python, A+), Statistical Computing (R, A), Agent-Based Model (Java).
Bachelor-International Economics and Trade, Hunan University - 985 Sep 2021-Jun 2025
Exchanges in University of Hong Kong and University of Oxford; Overseas Scholarship.

Internship Experience

Chaoxing Info-Tech Co., Ltd. **Beijing, China**
Software Product Assistant **Aug 2026-Now**
Course Agent Design: Built course-specific AI tutor/learning companion agents on Chaoxing AI Workbench powered by Huiya LLM. Supported model switching. Delivered product optimization proposals and PRDs.
AI-Assisted Instruction Design & UAT: Leveraged knowledge graphs and task engines to design AI-assisted course content workflows. Conducted UAT on AI tutor/agent features and produced acceptance reports.
GF Holdings (Hong Kong) Corporation Limited **Hong Kong, China**
Risk and Compliance Project Assistant **May 2026-Jul 2026**
Automated Programme: Volcano Engine API for recording, FFmpeg library for video, and tkinter for GUI.
Contract & marketing: Assisted in reviewing key internal business contracts and online promotional content.
KYC & CDD: Assisted in reviewing client onboarding and due diligence files against SFC AML/CFT.
Type 1/4/9 regulatory inquiry support: Supported responses to SFC Section 181 and 329 under the SFO.
Frost & Sullivan Consulting **Shanghai, China**
Marketing Assistant **May 2025-Jun 2025**
Data Visualization & Industry Research: Created 200 charts with ThinkCell drafting industry/ESG reports.
Primary Research & IPO Analysis: Use Ifind/Wind Database. Conducted Cold Calls/expert interviews.
Ansteel Freight Forwarding Co., Ltd. **Dalian, China**
Export Logistics & Shipping Operations Assistant **Jan 2024 – Feb 2024**
Shipping Order Consolidation & Booking Support: Consolidated booking request details to South Korea and Japan (cargo type, container volume, trade terms, etc.) Supported vessel chartering and slot scheduling.
Document Compliance Review & Data Validation: Pre-checked freight numbers, product descriptions, HS classification, pricing, and freight terms against export documentation standards. Identified and returned abnormal documents, keeping per-order error rates in the low single digits.

Project Experience

National SIT (Student Innovation & Entrepreneurship Training) Program
Project Leader **Nov 2023-Apr 2025**
Experience Gain Assessment: Design A/B testing for samples. Employ paired tests and confidence intervals to evaluate the effectiveness of the scheme to drive improvements in both user satisfaction and usage effect.
Python Web Scraping: Use the BeautifulSoup library to obtain user comments by province through API.
Map Visualization and Front-End Implementation: Develop an interactive map dashboard based on Vue-leaflet to visualize user distribution and regional conversion. Synchronized with Jupyter Notebook.
National "Create Youth" Tongcheng Travel Marketing Contest
Team Leader **May 2023-Jun 2023**
Data Engineering & K-means Clustering: Sourced Kaggle travel datasets and used Access to create local database. Cleaned data via SQL and applied K-means clustering. Visual GUI with Matplotlib library.
Marketing Strategy: Tailored 3 differentiated marketing plans, ranking in the top 16% nationally.
Hunan Univ. "Three Down to the Countryside" Program
Project Leader **Jun 2023 - Sep 2023**
Cross-departmental coordination: Communicated efficiently with the Yongding Youth League Committee, local government, and enterprises. Responsible for team building, task allocation, and progress management.
NLP text mining: Led the design and execution of a hybrid online and offline survey questionnaire targeting over 40 agricultural enterprises. Using LDA topic modeling, mined the collected interview texts and policy materials. Reported by authoritative media China.com and People's Daily Online with nearly 60,000 views.
